## CUMBERLAND

### **Sequatchie Cove Sequatchie, Tennessee**

“Named for the towering plateau that envelops the farm, which also happens to be the world's longest hardwood-forested plateau, Cumberland is a simple yet flavorful Tomme-style natural rind cheese. Fruity and earthy with notes of sweet hay, its versatility and approachable flavor make it equally at home in the kitchen and on the table. Pairs nicely with drier white wines such as a dry Riesling, fruity beers, green pears, and pecans. Perfect in salads or melted in almost any dish.”
