MATURE BELFORD

**James Ranch
Durango, Colorado**

“Belford is our signature cheese. We sell it in both a young and mature form. It started out as a gouda but after having made many changes, it now stands alone as a JR original. It is very creamy and has a lovely tang. Belford is a delicious table cheese and goes especially well with apples and pears. Belford (particularly the younger) melts well and is delicious in recipes.”
